Etr.csv

Description:

NHS Trusts

Contains:

Etr.csv contains parent NHS Trusts. All three NHS Trust files follow the same format and conventions, although fields 14 and 15 are only populated for NHS Trust Site records (thus found only in the ets file). This data is for current organisations, plus data for organisations that have closed in the current or previous financial year. NHS Trusts exist in England and Wales.

How Maintained:

NHS Trusts are statutory organisations. As such, any establishment, dissolution or changes to the name of NHS Trusts are published in a Statutory Instrument which is released on to the Government website of the Office for Public Sector Information. The ODS check this website daily and implement any changes required.

Information on Trust Sites and other minor changes to the parent organisations are relayed to ODS via the organisations in question. This is facilitated by an established ODS contact based within the organisation. No changes to the records associated to an organisation can be carried out without the express permission of the contact for that organisation.

Code Formats:

Organisation Type	Character Positions					Notes / Comments
	1	2	3	4	5	
NHS Trusts	A-Z	0-9	A-Z	0-9	A-Z	Issued after 1st April 2020
NHS Trusts	R	A-9	A-9			Issued before 1st April 2020

File Format:

The etr.csv file follows the standard 27 field format.

Column	Field Content	Size	Mandatory	Notes
1	Organisation Code	5	Yes	
2	Name	100	Yes
